Fun with Energy

Children need to be aware of energy and how to manage earth, human and universal life force energy for optimal health, grounding, relaxation, and protection which eases anxiety and restores confidence. Children who are aware of energy and manage it responsibly also grow up to be solid, well balanced and healthy adults.

No drumming experience is necessary.

Both programs are designed for kids ages 10+

ADVANCED CLASSES:

Your child may qualify to join uniquely designed programs offering Reiki attunements and Intuition Development certificate programs. Intuition in a child is precious and children who grow up trusting their intuition will be more confident and creative adults with a sense of inner peace.
